FISCAL IMPACT STATEMENT

LS 7045

BILL NUMBER: HB 1123

NOTE PREPARED: Jan 8, 2012

BILL AMENDED:

SUBJECT: Thirteenth Checks.

FIRST AUTHOR: Rep. Burton

FIRST SPONSOR:

BILL STATUS: As Introduced

FUNDS AFFECTED: X GENERAL
X DEDICATED
FEDERAL

IMPACT: State & Local

Summary of Legislation: The bill provides for a thirteenth check to certain members of the: (1) Indiana State Teachers' Retirement Fund (TRF); (2) Public Employees' Retirement Fund (PERF); and (3) State Excise Police, Gaming Agent, Gaming Control Officer, and Conservation Officers' Retirement Fund (C & E fund).

Effective Date: July 1, 2012.

Explanation of State Expenditures: This proposal provides a one-time 13th check to eligible PERF, TRF, and C & E fund members who retired or were disabled before December 2, 2011, and are entitled to a monthly benefit as of July 1, 2012. The 13th check is payable no later than October 1, 2012.

TRF 13th Check - For the Pre-1996 Fund, there will be a one-time payment of \$18.6 M in FY 2013 resulting in 45,421 retirees, beneficiaries, and survivors belonging to the Pre-1996 Fund receiving a one-time average payment of \$410. Since the Pre-1996 Fund is funded on a pay-as-you-go basis, the annual cost is the increase in the amount of benefits paid each year. The Pre-1996 Fund is paid for through appropriations from the General Fund.

For the 1996 Fund, 2,554 retirees, beneficiaries, and survivors belonging to the 1996 Fund will receive an average one-time payment of \$392. Total 13th check payments for members of the 1996 Fund will total \$1 M. The 1996 Fund is prefunded with an actuarially calculated contribution equal to the benefit accrual cost for the year (the Plan's normal cost) plus a 30-year amortization of the unfunded accrued benefit liability. The 13th check would increase the unfunded accrued benefit liability of the 1996 Fund by \$1 M.

The 1996 Fund is prefunded through employer contributions. Contribution rates have already been set for FY 2013. Increases to the annual employer contribution rates due to this provision would be reflected in contribution rates beginning in FY 2014. School corporations contribute a percentage of payroll, currently 7.50%.

PERF 13TH Check - One-time 13th check payments for all PERF retirees, beneficiaries, and survivors would total \$23.7 M in FY 2013 resulting in 70,380 PERF members who would receive an average one-time payment of \$336. The 13th check provision would increase the state's portion of PERF's unfunded accrued benefit liability by around \$8.8 M. PERF is actuarially prefunded through employer contributions, similar to the TRF 1996 fund. Contribution rates have already been set for PERF for FY 2013. Increases to the annual employer contribution rates due to this provision would be reflected in contribution rates beginning in FY 2014. The state currently pays a percentage of payroll, currently 8.6%. The increase would be reflected in contribution rates beginning in FY 2014.

C & E Fund - One-time 13th check payments for C & E Fund retirees, beneficiaries, and survivors would total \$61,000 in FY 2013 resulting in 176 C & E Fund members who would receive an average one-time payment of \$347. The 13th check provision would increase the fund's unfunded accrued benefit liability by \$61,000. The C & E Fund is actuarially prefunded through employer contributions. Contribution rates have already been set for the C & E Fund for FY 2013. Increases to the annual employer contribution rates due to this provision would be reflected in contribution rates beginning in FY 2014. The state currently pays a percentage of payroll, currently 20.75%.

Definitions:

Thirteenth Check - A thirteenth check is an annual supplemental retirement allowance arising from earnings on the investments of a system in excess of those determined as needed for other purposes. Unlike a cost-of-living adjustment, the amount of this supplemental retirement allowance does not increase the pension base.

Unfunded Actuarial Liability - The actuarial liability, sometimes called the unfunded liability, of a retirement system at any time is the excess of its actuarial liability at that time over the value of its cash and investments.
